

is

NECESSARY

and the proof is by contradiction
no flaw exists in all so no contradiction

but your LORD is One.
so every other explanation will
contradict

because it has to account for itself.
and it cannot

But how do I really know if GOD is real?

It's

going to come to rest in your inner sense of
meaning

because you can imagine what you please
but all facts stem from beliefs and statements
that have to be taken as obvious by interested parties

It's

an assurance in your heart and an outcome of
desiring that God's name be glorified

It's

a dawning of a new world, like going from
black and white to color, where our limited
knowledge could not be fathomed before

It's

known to be true because the outcome is
consistent with the premise that it is from GOD
and the presumption is necessary to test the
premise. GOD is necessary and the proof is
by contradiction. No flaw exists in ALL and
your LORD is One so every other explanation
will contradict, because it has to account
for itself
and it cannot.

It's

ontological, imploring us to desire what it
prescribes as we apprehend the meaning

It's

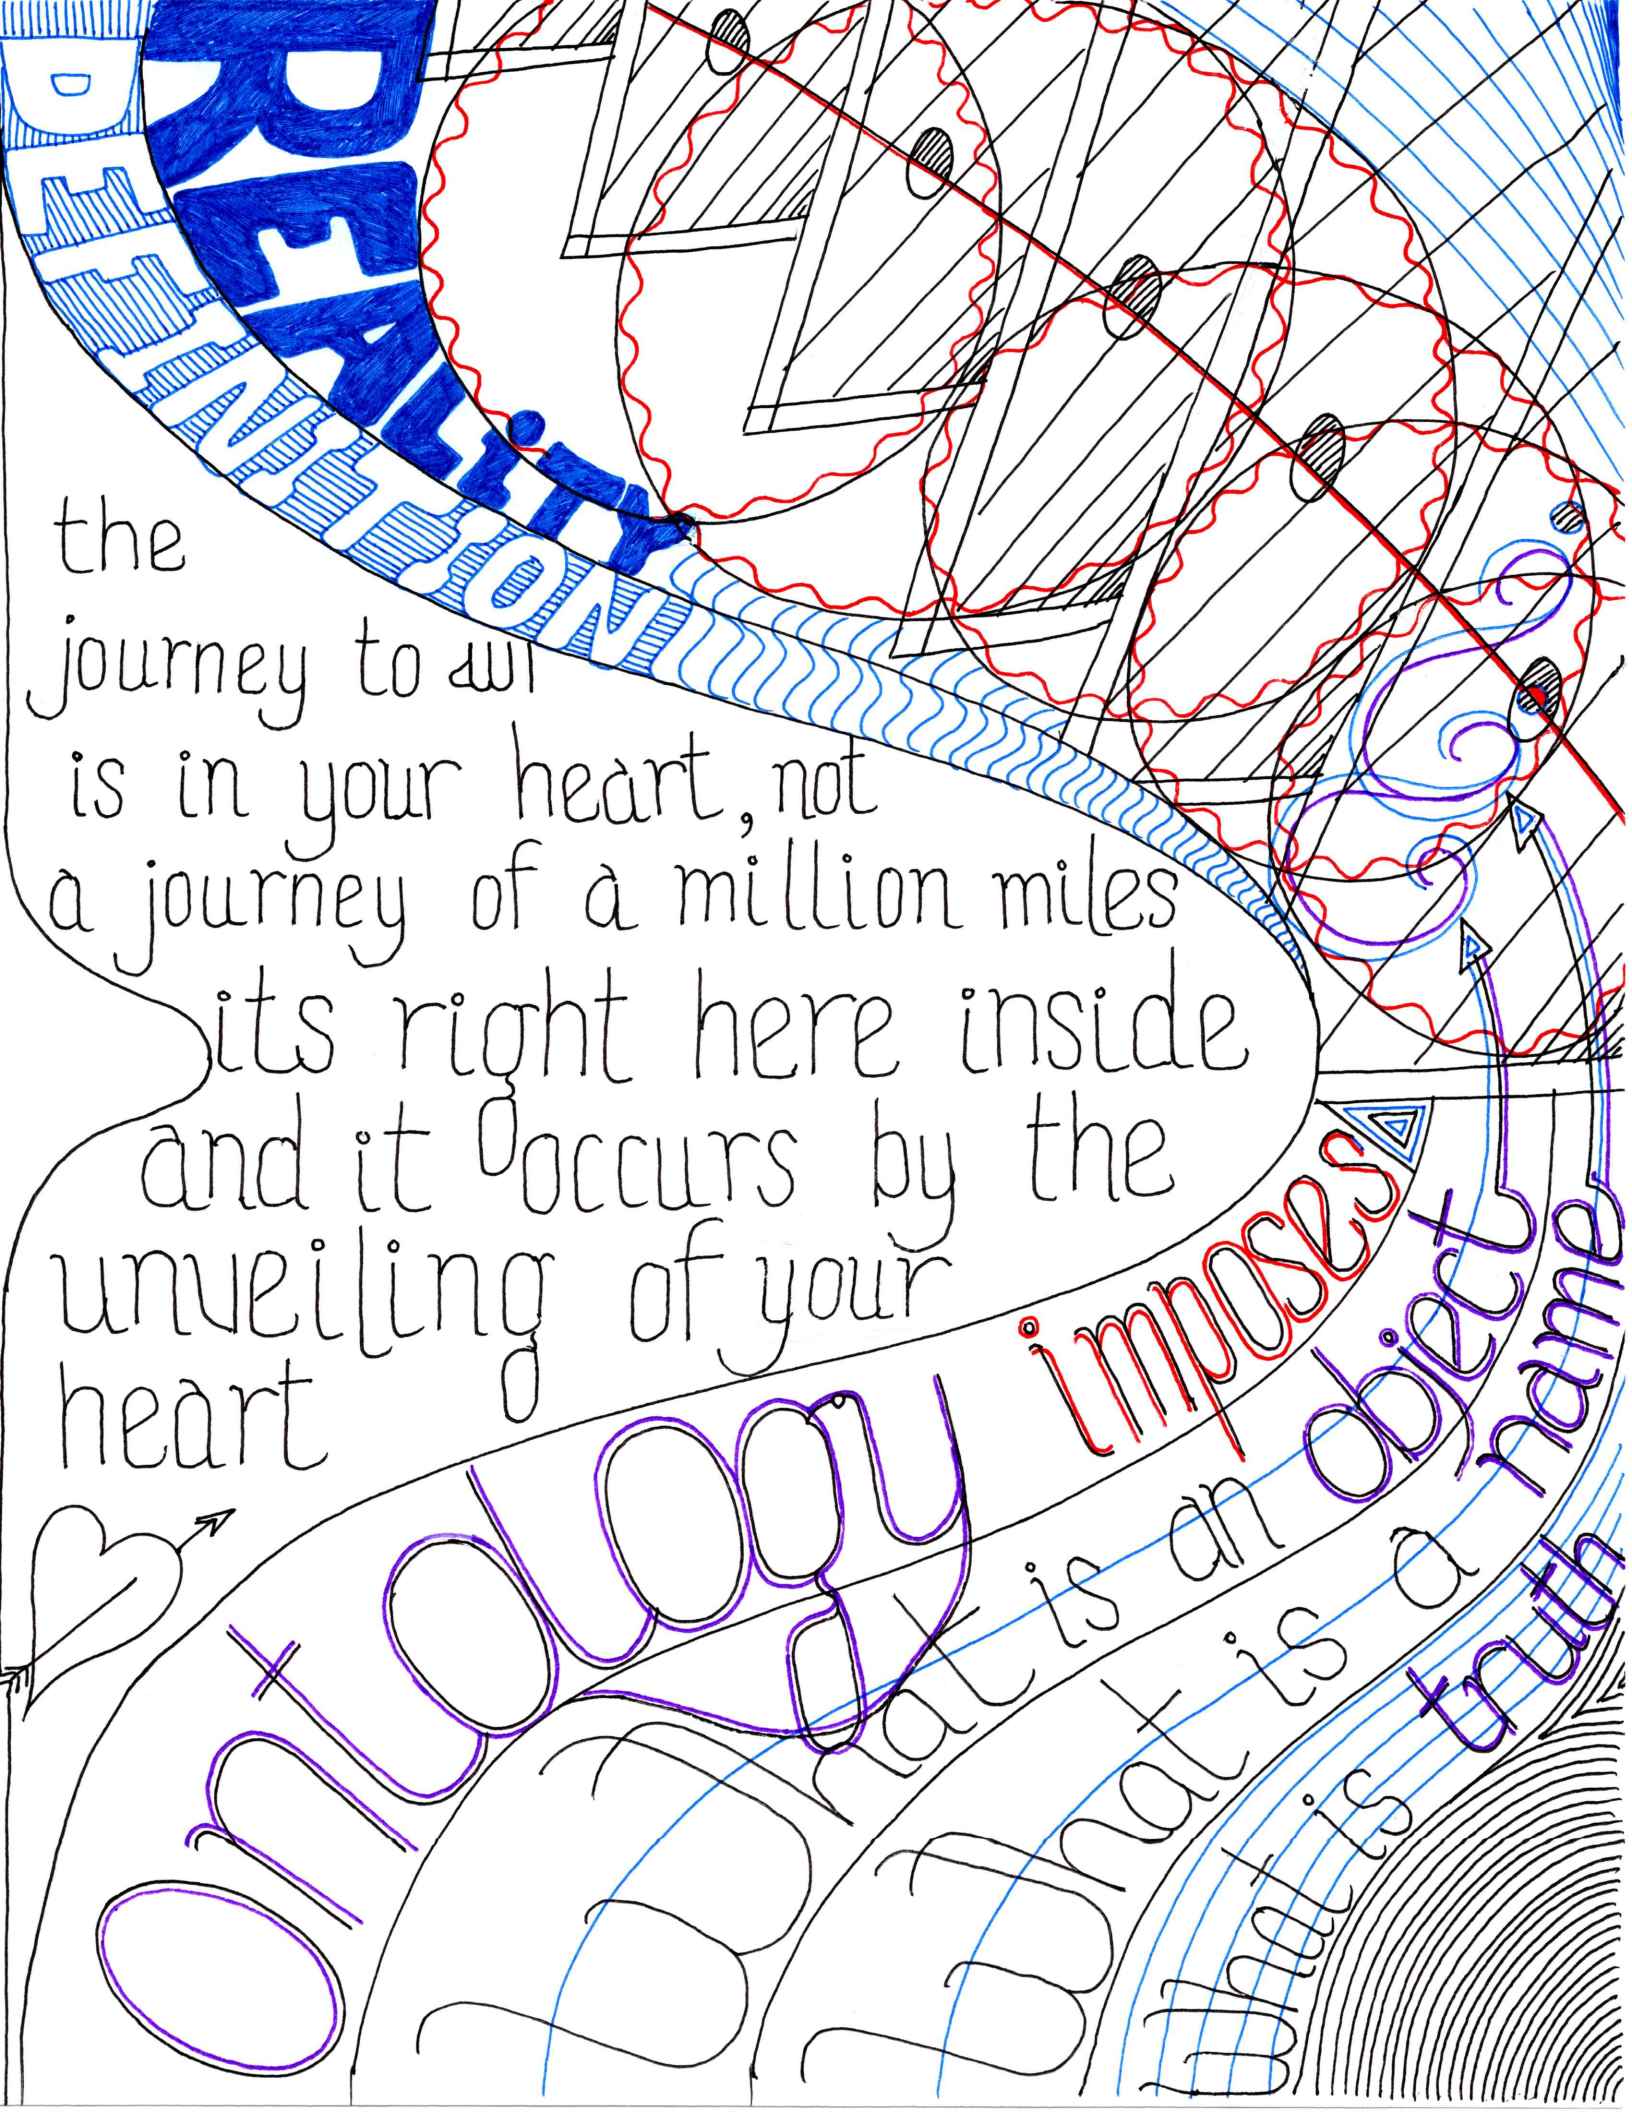

tawbah. Turning back to GOD, through our
self and facing our self, esteeming it correctly,
conditioning it and loving our self in GOD's name

IHSAN

IN PRACTICE IS

who are you?
what are you?
what is your
reality?
how are you put
together?

UNCOVERED IN YOU

REALITY

the journey to all
is in your heart, not
a journey of a million miles
its right here inside
and it occurs by the
unveiling of your
heart

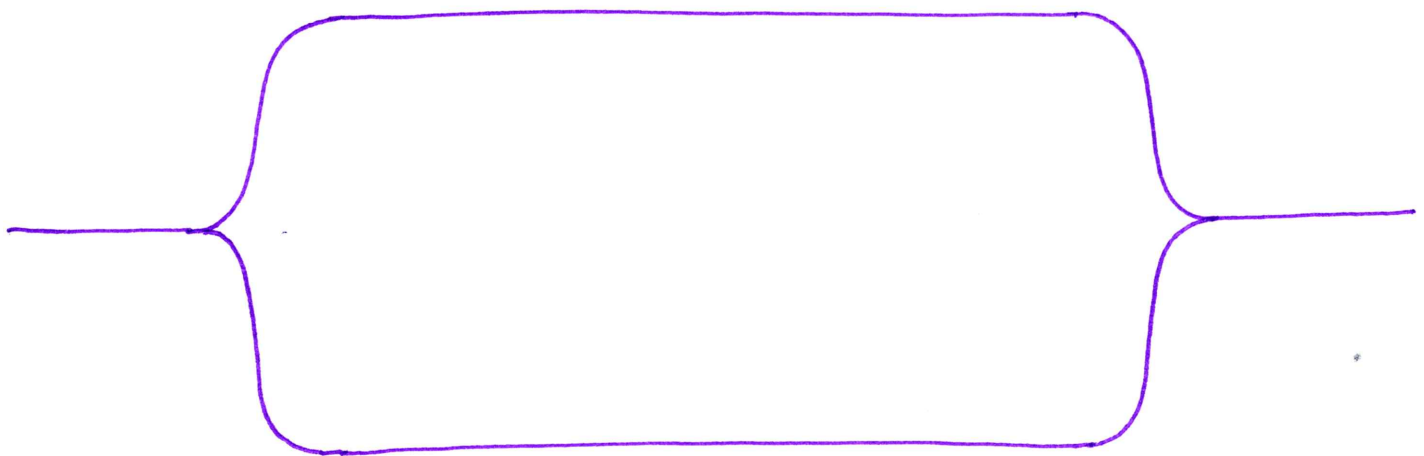

ONLY THAT IS AN OBJECT IMPOSES
WHAT IS A NAME
WHAT IS A TRUTH

I am content
with

GOD as my LORD

Muhammad {s} as my prophet

The Quran as my book
and
Islam as my religion

GOD strengthen and preserve me unto
life everlasting in Peace
~Ameen~
